Dear Ms. Drogos,

As per your request for more information on agricultural well, 2nd monitoring well at 413 West Sunset Blvd in Hayward, CA, this is to inform you again, in writing that to the best of my knowledge this well has not been in service and was only used as a single family home yard well only. It has been out of service for at least 35 years or more. The plan upon closure of this site is to close both monitoring well and abandoned agricultural well forever. There has never been a plan to ever try to use the agricultural well again.

Fuel leak case #R00000164
Geotracker global id T0600101947

Sincerely,
Karniel Lang
