**Duration:** 0 hours

Leave VM @ 1:30 for Karniel Lang in regards to the Ag well at site.

December 12, 2011 Mr. Lang leaves VM @ 12:07PM

Return call @ 1:20 PM; Ag well is not plumbed to house, and was only used by former owner to water vegi garden. House and well is now owned by Mr. Lang, and it sits abandoned, other than to be used for gw monitoring for this case. Pump at bottom, top blocked off and mentions some concern that crank case oil doesn't get poured in accidently, but is mostly occupied by his family members who know not to do so. Would like it to go. We discuss destruction procedures, but ask him not to jump the gun, wait for closure process, likely about 6 months. OK, thanks.
