Subject: RO167 Bohannon Development Property; Extension Request

All,
Eva, thanks for the phone call to remind me of this request. Please use this email to document ACEH concurrence with the requested extension. As reported in the recent groundwater monitoring report, and in today's voice mail, site work will begin tomorrow, and will require approximately 45 days to complete. An 8-week extension request appears appropriate in order to allow time to generate and review the resulting report. I'll update Geotracker shortly.
