Phone call with Jack Sumski, RP for the site. I explained how RP identification worked. He is concerned that they no longer own site and do not have access. I indicated that former owners remain RPs and that access agreements can be negotiated if the former owner is the active RP. He was not aware of whether the current owner intended to be an active RP. I advised him to contact the current owner to discuss who would take lead on remaining work requested in our last directive letter.
