Duration: 0 hours

Phone call with Peter Schaefer of Conestoga-Rovers & Associates (CRA). The USTs at the site have been replaced and construction is ongoing. CRA collected soil samples below the USTs. Based on these results, Inspector Matthews of Oakland Fire Department approved backfilling of tanks. No overexcavation was performed. I requested a copy of the Tank Removal Report. Due to the ongoing construction, groundwater monitoring has been delayed. It is possible that submittal of the next groundwater monitoring report will be delayed.
