**Sent:** Wednesday, July 30, 2008 1:52 PM  
**To:** 'Jim Ho'  
**Subject:** RE: regarding 6600 Foothill Blvd

Hello Jim,

The letter has been uploaded to GeoTracker and been sent via US Mail to you and the Responsible Party. Since mail takes a few days, I anticipate that you will receive the letter any day now. Please note that you will continue to receive copies of all correspondence sent to the RP.

To view existing documents on ACEH's website, please visit <http://ehgis.acgov.org/dehpublic/dehpublic.jsp> and search the site you are interested in.

If the survey data is incorrect, please identify how you determined that the data is erroneous and justify the necessity for the re-survey. This information may be summarized in the upcoming quarterly groundwater monitoring report.

The release form has been signed and faxed back to your office.

Sincerely,

Paresh C. Khatri  
Hazardous Materials Specialist

Subject: regarding 6600 Foothill Blvd

Hi Paresh:

I was lucky moving around on the GeoTracker and happened to stop by this site this morning and found that you already responded my July 16 letter. In fact, I was wondering how soon I could get your response. Now I see it on the GeoTracker. I am sorry you didn't accept our proposed due date of December 2008. We will do our best to meet the new

schedule. FYI, We have been uploading things onto the GeoTracker. I will continue doing that whenever we have new data/documents.

Question 1: Do you usually mail your hard copy original or you don't? I need to know how to work with you efficiently on this new project.

Q2: I already has the password to upload files on ACEH's ftp site. Could you please tell me how to check/download existing documents on the ftp?

Q3: FYI, the TOC survey data used by the previous consultant is wrong. It has been used since July 2003. We are in the process to correct it. We may have to re-survey all six wells. Please comment. I need your approval for re-survey.

Q4: Have you signed the application form for Alameda County well survey? Please FAX it back ASAP. Thanks.

Best regards,

Jim Ho, Ph.D., P.E.

Paresh:

The postal mail just came in TWO minutes before I read your e-mail. The timing was interesting, isn't it? You are right. Mails takes a few days. In fact, I just lost five days (7/24 letter signed, 7/29 arrived).

The reported/employed TOC elevation was approximately 159-160 feet above msl. However, the topo for that area is only about 58-60 feet above msl. Some area of Oakland is only 20 feet above msl. That is how we found that the survey was incorrect. We have contacted the original survey company. They have not responded our request yet. We will re-survey if the original survey company (PLS) cannot correct it.

Jim

Paresh:

Once again, 3 minutes ago, the survey company responded. The data was about 97.2 feet off. - Jim
