Hello Scott,

ACEH has completed reviewing the submittal, including the revised figure and does not oppose implementing the scope of work as approved in our February 10, 2011 correspondence.

Sincerely,

Paresh C. Khatri

Paresh:

In your February 10th letter, you asked for a figure re-submittal for this project, which involved plotting the location of onsite utility trenches and proposing the location of some soil gas wells. We completed this task, and also prepared information regarding the construction of the wells and the protocol for soil gas sampling before/during/after pilot testing work.

Your letter gave us a very tight deadline for completing this work (May 10, 2011), given that the work includes a 30-day ozone/peroxide injection pilot test.

In lieu of the deadline, would you mind taking a look at this document (also uploaded to Alameda County's ftp site) and let us know if the work proposed is ok so that we can proceed?

Thanks,

Scott Bittinger
