Hi James,

Since Chevron has active plans for site redevelopment I / we didn't want this to go to long based on statements in the work plan (a principal reason surfactant was being proposed I seem to recall). I'd like to minimize future problems should that be a significant issue; so in an effort to minimize that potential, let's extend the due date to March 14. You can use this email as approval of that extension.

Best,

Hi Mark,

Regarding RO185, per your 12/16/10 letter, we have a due date of 2/14 for submission of a WP for additional investigation. Unfortunately, I have too much going on and thus don't anticipate being able to make this deadline. Would an extension to the end of March be feasible?

Sincerely,
