Alexis,

As you know, I represent Matin Moghadam with regard to his properties that adjoin the above site. Several Chevron monitoring wells are located on his property. For more than a month I have been trying to discuss the above matter with someone at Chevron, or one of your consultants, with regard to various questions we have about this site investigation and remediation beyond what's indicated on Geotracker or the ACEH websites.

On October 8 you and I had a brief telephone conversation, but you were not familiar enough with the site to discuss other questions that we have, i.e. information re MW-8, further information re MW-4 results, proposed new borings, access agreements, etc. You indicated that you would get back to me. However, I have not heard back from you. Again, please let me know whom I can talk to at Chevron (or consultants) that may be conversant about this site. Mr. Moghadam is very concerned with regard to the impacts on his property.

Thanks,
Gary
