Hi James,

Your proposed due date is fine, please use this email as concurrence with the date. It will allow time to incorporate the data into a report. Please consider the construction schedule out there. I'd like to keep the site moving so the environmental issues don't get severely wrapped up in construction issues.

Best,

Mark Detterman

Subject: RO185 (Former Chevron 9-7127, 580 and Grant Line, Tracy) - Investigation Report Extension Request

Hi Mark,

Regarding this site, we have a due date of 9/15 for the soil/GW investigation report (per your 6/28/11 e-mail). Unfortunately, as we had to push back the fieldwork due to scheduling conflicts and trying to nail down the sonic driller, as you know we just completed the fieldwork last week. As such, given the lab TAT and with the amount of data we will have, I don't realistically see us being able to meet this deadline. Thus, on behalf of Chevron, I would like to request an extension until 10/28 for submittal of this report. Please let me know if this is acceptable. Thanks.

Sincerely,

James P. Kiernan, P.E.
