Hi Mark,

Per my voice message, ARCADIS would like to request an extension for WSW-1 well destruction activities. Well destruction activities were scheduled to occur today, however, due to health and safety concerns associated with weather (heavy rain and high winds) the job was cancelled. All sub-contractors are available during early March; therefore, ARCADIS requests an extension of March 31, 2015 for water supply well destruction activities.

Thank you,
