Julia,

Based on your request, the schedule for submittal of a Site Characterization Report for case RO0188 is extended to October 28, 2011.

Good Afternoon Jerry,

I wanted to give you a quick update on the status of this project. LVJUSD and ACC are ready to implement the scope of work outlined in the April 20, 2011 Work Plan submitted and approved by your office. In gearing up for the drilling I was only able to get the drilling contractor (Greg Drilling) to give us a time slot from September 12-19, 2011. They are estimating that the drilling is going to take six days. I do not want to break up the drilling schedule.

The deadline you gave us for the site characterization report is September 28, 2011. With the drillers availability limiting the start date to September 12, 2011, ACC is requesting a one month extension for the completion of the site characterization report. Please let me know if this is acceptable.

If you have any questions or concerns please feel free to contact me.

Thank you,

Julia Siudyla
