MESSAGE LVME SCHOOLS
TANK REMOVAL

Harvey Samples - low carbon in pump
stand - I asked him to excavate w/
backhoe - If odor or reading is/
SIGNED DVM - take over excavate to N.D.
LITHO IN U.S.A. ee 8/18/92

MW-1 installed Dec 14, 1990 at West end of ~~stake~~
 pt. BUT Report states water gradient is
 northeast - why was well installed in North West?

It has been determined that GW is affected -
 Need to do more soil borings to determine lateral
 extent of contam.

Need to install add'l MWs to determine plume
 contam.

Has VSTs been removed yet?

Need Remedial action plan

- Questions
- 1) No reports since ^{SEP} Nov 1991 - any water sampling? No
 - 2) When will tanks be removed. SOON
 - 3) When will work plan be submitted for subsurface
 investigation - lateral extent of soil & water
 contaminant plume
 - 4) Daily monitoring / sampling & reporting required.

June 25-1992 - left msg for White to call

Dick Alford Supervisor Safety

2801 Ladd

Tanks now abandoned - Diesel emptied 1 week ago

6/26/92 Dick Alfred says Engeo doing closure plans
tanks now abandoned (last diesel pumped out
1 week ago) Another tank is across street
2801 Cadd. - All 4 tanks will be removed
I will send letter requesting closure plans and
subsurface investigation
