Subject: Fuel leak case RO190 - ARCO 2162, 15135 Hesperian Blvd., San Leandro

Joel,

In September you had emailed me if your well could be at risk due to the fuel release at the subject site. As we approached the closure deadline, Alameda County Environmental Health (ACEH) though of the opinion it is highly unlikely the well at 489 Nabor St. would be impacted from the ARCO release, ACEH believes it prudent to sample the well prior to the case closure. I have provided your contact information to Broadbent Associates (Broadbent), the consultant for BP and have asked them to sample the well.

Please provide BP/ Broadbent access to your well.

Should you have any questions regarding this correspondence or your case, please call me at (510) 567-6764 or send an electronic mail message at keith.nowell@acgov.org.

Thank you,

Keith Nowell
