## STATION #2162 QUARTERLY GROUND-WATER STATUS REPORT

Facility: #2162	Address:	15135 Hesperian Boulevard, San Leandro, California
Environmental Business Manager:		Mr. Paul Supple
Consulting Company/Contact Person:		Broadbent & Associates, Inc. (BAI)/Rob Miller & Tom Venus (530)566-1400
Primary Agency/Regulatory ID No.:		Alameda County Environmental Health (ACEH) ACEH Case #RO0000190
Consultant Project No.:		06-08-620

### WORK PERFORMED THIS QUARTER (Third Quarter 2008):

1. Prepared and submitted the Second Quarter 2008 Status Report.
2. No environmental work was conducted at the Site during the Third Quarter of 2008.

### WORK PROPOSED FOR NEXT QUARTER (Fourth Quarter 2008):

1. Prepared and submitted this Third Quarter 2008 Status Report (contained herein).
2. No environmental work is scheduled for the Site during the Fourth Quarter 2008.

### DISCUSSION:

Case closure was requested by BP on 4 June 2004 from ACEH. Ground-water monitoring and reporting was performed during the Third Quarter of 2006 in accordance with the request from ACEH to support the case closure process. Following their review, ACEH determined that in order to facilitate site closure an additional soil and ground-water investigation was required, as relayed in the ACEH letter dated 5 April 2007. The requested work plan was submitted on 15 May 2007. Field work occurred at the Site on 16-17 July 2007. The resulting soil and ground-water investigation report was submitted on 14 September 2007. For reference, a site map with the locations of the on-site soil and ground-water investigation borings is provided in Drawing 1.

Also received from ACEH in an email dated 4 April 2007 was a notice to discontinue the current program of ground-water monitoring. Therefore, the annual ground-water monitoring event previously scheduled to occur during the Third Quarter of 2007 was not performed. BP is currently awaiting a response from ACEH regarding the *On-Site Soil and Ground-Water Investigation Report* (BAI, 14 September 2007).
