Hello Jerry,

Unfortunately we still don't have a completed encroachment permit to install the additional well.

The RP has been out of the country (China) for the past couple months and has not been able to sign off on the permit. I've been working with the RP to see if he can sign and have the permit notarized (as required by the City of Oakland) at a US Embassy in China. The closest US Embassy to the RP is a three hour flight away and scheduling an appointment has been problematic according to the RP.

Once we have the encroachment permit, we should be able to proceed without much further delay, but it looks like we might not have this resolved until the RP gets back to the US in late March 2012.

On behalf of the RP I'm requesting another extension. I apologize for the continued delays, but unfortunately my hands are tied until we get the encroachment permit resolved.

Please feel free to contact me if you wish to discuss further.

Regards,

**Bryan A. Fong**

Extension Request ~COR-581000~

Hello Jerry,

Fuel Leak Case No. R00000196

800 Franklin Street, Oakland, CA

Monitoring Well Installation and Report

I would like to request an extension for the submittal of the well installation report requested in your letter dated May 16, 2011.

We are still working through encroachment permit issues with the City of Oakland, which has caused significant delays. Based on discussions with the City of Oakland regarding the general permit application process (6-8 weeks), it sounds like an encroachment permit won't be issued until early December at the earliest.

Based on this information, I would like to request a conservative extension date of January 27, 2012. We are working to get this work completed as soon as possible.

Thank you for your consideration. <<https://sync.acgov.org/OWA/UrlBlockedError.aspx>>
