---

Hello Stephen:

Ms. Sonia Mahini, MPH, of NORZOD, LLC performed an independent review of *Petroleum Vapor Intrusion Risk Evaluation* (PVI), dated October 1, 2015, prepared by Langan Treadwell Rollo (Langan) and the *Petroleum Vapor Intrusion Risk Evaluation Addendum*, dated January 28, 2016, prepared by Langan. Her findings were summarized in the *Technical Evaluation Letter of the PVI and PVI Addendum*, dated February 1, 2016, prepared by Sonia Mahini of NORZOD, LLC.

ACEH concurs with Ms. Mahini's opinion that residual petroleum compounds in soil vapor and groundwater beneath the site do not pose an unacceptable carcinogenic risk or non-carcinogenic hazard by potential PVI to future residents or commercial workers at the proposed development.

Thank you,

Karel Detterman, PG
