Entry Type: Phone call
Company: Treadwell Rollo

Start: Fri 6/19/2009 10:30 AM
End: Fri 6/19/2009 11:20 AM
Duration: 50 minutes

Conference call with Matt Hall and Patrick Hubbard to discuss steps to closure. They will submit an updated map for boring locations that define the lateral and vertical extent of hydrocarbons. They will also perform a preferential pathway study to identify utilities and wells in the area. Work will begin in autumn on the site which includes removing the top 15 feet of soil across the entire site.
