**Entry Type:** Phone call  
**Company:** Treadwell &Rollo

**Start:** Fri 1/29/2010 11:30 AM  
**End:** Fri 1/29/2010 11:40 AM  
**Duration:** 10 minutes

Spoke with Matt Hall about the SWI that was submitted. He informed me that the plan was to excavate in the areas with residual contamination before the site is fully excavated for the basement/parking lot. A site management plan will be submitted to the DTSC for soil at both our site and the DTSC site that is adjacent to the former USTs. Excavation and sampling will begin ~ a month before construction. Matt will notify me before sampling so I can go out there.
