Subject: RE: RO#203 Report Upload

Dear Ms. Kambin,

We have been notified of your intent to proceed with the soil vapor investigation for RO203, 3943 Broadway, Oakland site. Should you proceed with the fieldwork, you would be doing so without concurrence from ACEH. If no comments arise from the review of the work plan addendum, then proceeding with the fieldwork would not appear to have any significant repercussions. However, if comments to the work plan addendum are identified, modifications to the fieldwork may be necessary, which may require additional mobilizations and /or additional sample analyses, etc. Please note that the UST Cleanup Fund typically reimburses costs for a scope of work that has been approved by a regulatory agency. Since a review of the work plan addendum cannot be completed in the time frame allotted and if the scope of work is implemented prior to regulatory approval, the UST Cleanup Fund may not fully reimburse all costs associated with the proposed scope of work. Please contact the UST Cleanup Fund to address cost reimbursement concerns.

Also, I am no longer the caseworker for this site, so I am sending this message on his behalf and have included the case worker on this email.

Regards,
Barbara Jakub
