Subject: Palace Garage (RO#0000208) - SCM Preparation

Hi Steve,

Good speaking with you today!

At any rate, as discussed, we understand that you would like us to prepare a Site Conceptual Model for the facility located at 14336 Washington Avenue, in San Leandro (Palace Garage, RO#0000208). We further understand that you would like a DWR well search to identify any known wells within a 2000' radius of the site. In order to ensure that this work is reimbursable by the UST Fund, if you could acknowledge your request for us to prepare this SCM by replying "yes, please prepare me a SCM", I would greatly appreciate it!

Thanks,
--Ron
