Subject: RE: RO#208 Palace Garage Additional Assessment

Matt,
That is the gist of the request, but it may be tweaked slightly. A letter should be out shortly.

Have you conducted a groundwater monitoring event this month? If not please do so as the highest data for several wells (including the new well) occurs in May. This will also be included in the pending letter, and a request for changing to a semi-annual interval.

Thanks,

Mark Detterman

Subject: RO#208 Palace Garage Additional Assessment

Hi Mark,
Thanks for the call today. As we discussed, you have requested a data gap work plan involving additional shallow soil and soil vapor sampling and analysis for the Palace Garage site. I understand a letter directing this work is forthcoming however considering we are working under a tight time frame I would like to begin the work as soon as possible. If you could please respond to this email confirming the work and include any additional comments I can move forward with the work. If I've overlooked anything or you have any questions please feel free to contact me.

Thanks,

Matt
