Subject: RE: Report extension request

Hi Matt,

I'd be in agreement that it's a pretty tight schedule; let's use a revised date on April 13th, not quite 60 days from the original date, but a good deal over it from the first day of field work. Hopefully that will be sufficient. I'll update Geotracker shortly.

Have a good set of holidays yourself!

Best,

Mark Detterman

Subject: Report extension request

Hi Mark,

I'm glad we finally managed to talk. As we discussed on the phone it looks like I will need an extension on the report deadline for the Palace Garage site at 14336 Washington Ave., San Leandro. The earliest drilling date for well installation I could get is January 26. This won't leave much time after well development to conduct a DPR pilot test and report results by February 17, 2012. I believe a 60 day extension would be enough to conduct the pilot test, analyze the lab data results, and prepare a report. Please let me know what you think.

Happy Holidays!

Matt
