

Village Pkwy
Dublin

8-13-93

MEMO to file:

Brady Nagle (Aisto) called today to request on behalf of BP Oil a reduction in sampling frequencies and for target analytes at this site. I advised him that such a decision is best left between he and the case worker, Eva Chu, for I would need to review the entire case before I could render a decision. I informed him of Eva's return Sept. 10, 1993.
