**Subject:** RE: County of Alameda Property at Holland Park

Kris,

We have no objection to use of the Soil Management Plan for the adjacent parcel. In particular, the area along the parcel boundary should be monitored and inspected for unknown environmental conditions during excavation and grading activities.

Regards,

**Jerry Wickham**

Jerry,  
We've been talking with Alameda County regarding the construction of the youth center at Holland Park adjacent to the HARD property. Their concerned about contaminated soil they might find during excavation and grading activities. I suggested they use the site SMP for direction, which I will amend to include the information discussed in your April 5th letter. Larry also agrees that the County can use the SMP since they're working together on this project. Please let me know if this is something that your department is comfortable with.  
Thanks,

Kris M. Larson, P.G.
