Subject: Fuel Leak Case No. RO0000216 and Geotracker Global ID T0600101409, Beacon #3720/Ultramar #720, 1088 Marina Boulevard, San Leandro, CA 94577 – Groundwater Monitoring Requirements

Dear Mr. Baker et al:

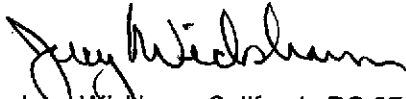

The purpose of this correspondence is to inform you of changes to groundwater monitoring requirements for all fuel leak cases in California. The California State Water Resources Control Board (State Water Board) has approved Resolution No. 2009-0042 (*Actions to Improve Administration of the UST Cleanup Fund and UST Cleanup Program*). Resolution No. 2009-0042 states that, "*Regional Water Board and LOP agencies shall reduce quarterly groundwater monitoring requirements to semiannual or less frequent monitoring at all site unless site-specific needs warrant otherwise and shall notify all responsible parties of the new requirements no later than August 1, 2009. If more than semiannual monitoring is required for a case, the responsible party and State Water Board shall be notified of the rationale and the notice shall be posted on Geotracker.*"

This case is currently under review for possible case closure. In correspondence dated August 1, 2008, Alameda County Environmental Health (ACEH) requested that groundwater monitoring be suspended. Therefore, no actions are required for this site in response to Resolution No. 2009-0042.

Responsible Parties
