**Subject:** RO219- Unocal #5043

Dear Walter Sprague,

Alameda County Environmental Health (ACEH) has reviewed the February 11, 2013 document titled *Work Plan- Well Destruction*, prepared by the Antea Group, for the Unocal #5043 facility, ACEH case number RO0000219, located at 449 Hegenberger Road in Oakland, California. The work plan proposes to decommission groundwater monitoring well MW-12A as “recent data indicates that the groundwater monitored by this well monitoring is not impacted at actionable concentrations”. ACEH believes the chemical concentrations reported in groundwater at MW-12A provide valuable data regarding the vertical distribution of contaminants at the site. ACEH does not agree with the work plan proposing to decommission monitoring well MW-12A.

ACEH is in receipt of the April 23, 2013 Remedial Action Plan (RAP) prepared by Antea Group for the site. The RAP includes a proposal for excavating the area surrounding monitoring well MW-12A. The RAP is currently in review.

Thank you,  
Keith Nowell
