Subject: 240734-285 Hegenberger Rd., Oakland - Extension request for risk assessment prior to an FS

Jerry,

Per our telephone conversation yesterday, CRA on behalf of Shell would like to request an extension of the May 25, 2010 due date for the Feasibility Study Report (FS) requested in Alameda County Environmental Health's March 4, 2010 letter to August 25, 2010. We are requesting the extension to give us time to assess the potential environmental risk posed by calculated possible total petroleum hydrocarbons as gasoline (TPHg) concentrations in groundwater reaching San Leandro Channel via the potential preferential pathway provided by the 54" storm drain in Hegenberger Road. While we have no evidence of any TPHg reaching the channel, we believe that we need to assess this potential environmental risk before we can provide an adequate FS.
