Re: Change of Site Manager Notification ConocoPhillips
Alameda County District Sites Currently Managed by Bill Borgh

Dear Ms. Jakub,

This letter is to inform you that I will be assuming responsibilities for the Alameda County Environmental sites currently managed under Mr. Bill Borgh.

Per my recent emails to you I will be attempting to set an introductory meeting with you in August to go over the current site status and any existing concerns you may have.

I look forward to building a solid communication bridge as we move these sites forward. Please call me directly with any concerns prior to our meeting.

Respectfully,

Terry L. Grayson
ConocoPhillips Company
