Subject: Monitoring Well Destruction and Landowner Notification for Fuel Leak Case No. RO0000241 and GeoTracker Global ID T0600100206, BP #11127, 5425 Martin Luther King Jr. Way, Oakland, CA 94609

Dear Mr. Carmel:

Final approval of case closure for the underground storage tank investigation at the subject site is almost complete. A case summary report proposing closure had been forwarded to the Regional Water Quality Control Board (RWQCB) on September 10, 2010 for their thirty (30) day review period. The RWQCB notified Alameda County Environmental Health (ACEH) that they have no comments on the proposed closure action. Since no comments opposing closure were received, the monitoring wells installed at the site must be properly destroyed, per California Water Code and all current record owners of fee title to the site must be notified by the primary or active responsible party of the proposed closure action, prior to issuance of a remedial action completion certificate.

ACEH requests that you address the following technical comments, perform the proposed work, and send us the technical reports requested below. Upon receipt of the requested documents a remedial action completion certificate will be sent to the responsible party.

TECHNICAL COMMENTS

1. **Monitoring Well Destruction** – ACEH is requesting that you contact Alameda County Public Works Agency at (510) 567-6791, obtain the necessary permits, destroy the wells, and electronically upload the monitoring well destruction report to ACEH's FTP server and the State Water Resources Control Board's GeoTracker website within ninety (90) days from the date of this letter (December 15, 2010). Electronic reporting is described in detail below.
2. **Landowner Notification Form** – As you may be aware, an investigation resulting from underground storage tank leaks was performed at the subject property to which you are named as the primary or active responsible party. Pursuant to Section 25297.15 (a), Alameda County Environmental Health (ACEH), the local agency, shall not consider cleanup or site closure proposals from the primary or active responsible party, issue a closure letter, or make a determination that no further action is required with respect to a site upon which there was an unauthorized release of hazardous substances from an underground storage tank subject to this chapter unless all current record owners of fee title to the site of the proposed action have been notified of the proposed action by the primary or active responsible party. ACEH is required to notify the primary or active responsible party of their

requirement to certify in writing to the local agency that the notification requirement in the above-mentioned regulation has been satisfied and to provide the local agency with a complete mailing list of all record fee title owners.

Also your comments, if any, must be considered prior to the proposed cleanup or closure. Please respond within 30 days from the date of this letter for your comments to be considered.

Upon our receipt of the completed Landowner Notification Form and report of well destruction, (which includes confirmation of investigation derived waste disposal) this office will issue you the remedial action completion certificate
