Subject: Fuel Leak Case No. RO0000251; Unocal #3538 (Chevron #351642) (Global ID # T0600101472),
411 MacArthur Blvd, Oakland, CA 94609

Dear Ms. Kambin, and Messrs. Ralston, Yu, and Ma:

Alameda County Environmental Health (ACEH) staff has reviewed the case file for fuel leak case RO0000251 –Former Unocal #3538 located at 411 West MacArthur Boulevard in Oakland CA- including the *Response to Technical Comments*, prepared by AECOM, and dated September 13, 2013, addressing comments made by ACEH in its Directive Letter dated May 24, 2013. ACEH would like to schedule a conference call to discuss the strategy to define the distal end of the contaminant plume- the remaining data gap. With the edge of the plume defined, the distance to both the nearby surface water body and beneficial use water wells can be addressed in the State Water Resources Control Board's Low Threat Underground Storage Tank Case Closure Policy.

Please provide ACEH several dates and times during which a conference call can be scheduled. ACEH staff will select dates and times from your list and issue an invite to schedule the call. Please provide the list of available dates and times by November 21, 2013. If your email address does not appear on the cover page of this notification ACEH is requesting you provide your email address so that we can correspond with you quickly and efficiently regarding your case.

Thank you for your cooperation. Should you have any questions regarding this correspondence or your case, please call me at (510) 567-6764 or send an electronic mail message at keith.nowell@acgov.org.

Sincerely,

Keith Nowell, PG, CHG
Hazardous Materials Specialist
