Received a call from Dana Sander re Unocal #3528, RO251. Ms. Sander is interested in purchasing an adjoining property, had no time for me to do a thorough review, and wanted to know the case status. I quickly reviewed the most recent GWM. I told her there appeared to be little concern with health exposure as her property is down- to cross gradient, DTW was >15 feet, and no benzene is present in the GW. I asked if there were wells on the property. Ms. Sander said there were no wells.
