

## **PHONE LOG**

**RO0000251**

**411 West MacArthur, Oakland**

**Date: September 1, 2015**

Dilan Roe forwarded a phone call from Maurice Brenyah-Addow (510-238-6342) with the City of Oakland Planning Department. He is reviewing plans to build a 20-unit residential structure at 411 West MacArthur in Oakland. He saw on GeoTracker that a fuel leak case for the site was recently closed and wanted to find out if there were any problems with approving project.

I left a voicemail message on September 1, 2015 indicating that the case RO0000251 was closed on August 19, 2015 with site management requirements that limited land use to commercial and required ACEH review if the site was to be redeveloped. Construction of a residential project would not be in accord with the site management requirements. I indicated he should call me with any questions.

Jerry Wickham
