Re: **Groundwater Analytical Results**

17348 Via Magdalena

San Lorenzo, California 94580

Dear Mr. Luche:

This letter presents the results of the sampling of the irrigation water-supply well located on your property at the above referenced property. Pacific Environmental Group, Inc. (PACIFIC), on behalf of ARCO Products Company (ARCO) performed the groundwater sampling to test for gasoline in the water. The sample was collected on December 21, 1992 and submitted to the laboratory for analysis of total petroleum hydrocarbons calculated as gasoline (TPH-g) and benzene, toluene, ethylbenzene, and xylenes (BTEX compounds) in groundwater. ARCO and PACIFIC would like to express their gratitude for your cooperation in this project.

**The groundwater sample collected from your well did not contain any dissolved concentrations of TPH-g or BTEX compounds.** It is ARCO's and PACIFIC's understanding that the well is used strictly for irrigation purposes. This well should not be for any other purpose other than irrigation unless advised differently by the Alameda County Department of Environmental Health.

To continue to monitor the groundwater in your vicinity, ARCO would like your permission to sample your well on a quarterly basis through 1993. If this is agreeable with you, please sign and date the enclosed copy of ARCO's Well Sampling Permission Letter and return the signed copy to me as soon as possible. ARCO or our representative will be contacting you in regards to accessing your well.

January 14, 1993

Page 2

In the event of any changes in the characteristics of the water (color, odor, clarity, etc.), please contact ARCO, and the well will be resampled at ARCO's expense. Please call me at (415) 571-2434, and/or Ms. Juliett Shin of Alameda County Health Care Services (ACHCS) at (510) 271-4320 if you have any questions regarding the contents of this letter.

Sincerely,

**ARCO Products Company**

Michael Whelan  
Environmental Engineer

Re: Well Sampling  
17348 Via Magdalena  
San Lorenzo, California 94580

Dear Mr. Luche:

The well located on your property was sampled in December 1992 by Pacific Environmental Group, Inc (PACIFIC) on behalf of ARCO Products Company (ARCO). Thank you for your cooperation with assisting PACIFIC and ARCO during the two previous well sampling events. Because of the presence of gasoline compounds detected in the groundwater in your area, ARCO would like permission to continue sampling the well located on your property on a quarterly basis through 1993. A schedule of the sampling events for 1993 will be prepared and sent to you for your information and convenience. If this is agreeable with you, please sign and date the enclosed copy of this letter, and at your earliest convenience return it to Pacific Environmental Group, Inc. in the enclosed self addressed stamped envelope. Please retain the additional copy of this letter for your records.

If you have any questions regarding this letter, please call Mr. Kelly Brown with PACIFIC at (408) 441-7500.

Sincerely,

Re: ~~Groundwater Analytical Results~~  
~~17200 Via Magdalena~~  
San Lorenzo, California 94580

To whom it may concern:

This letter presents the results of the sampling of the irrigation water-supply well on your property at the above address. ARCO Products Company (ARCO) and Pacific Environmental Group, Inc. (PACIFIC) would like to express their gratitude for your cooperation in the completion of this project. PACIFIC, on behalf of ARCO performed the groundwater sampling to determine the source and extent of gasoline contamination found in shallow groundwater, and whether gasoline is present in the well on your property. The groundwater sample was collected on December 18, 1992 and was submitted to a laboratory to be analyzed for total petroleum hydrocarbons calculated as gasoline (TPH-g) and benzene, toluene, ethylbenzene, and xylenes (BTEX compounds) in groundwater.

~~Laboratory analysis of the groundwater sample collected from your well on December 18, 1992 has detected TPH-g and benzene at concentrations of 160 and 1.4 parts per billion (ppb), respectively. These compounds are indicative of gasoline.~~

It is ARCO's and PACIFIC's understanding that your well is used only for irrigation purposes. This well should not be used for any other purpose, other than irrigation unless permitted or advised differently by the Alameda County Department of Environmental Health.

To continue to monitor the groundwater in your vicinity, ARCO would like permission to sample the well on a quarterly basis through 1992. If this is agree-

January 14, 1993

able with you, please sign and date the enclosed copy of this letter and return the signed copy to me as soon as possible. In the event of any changes in the characteristics of the water (color, odor, clarity, etc.), please contact ARCO, and the well will be resampled immediately at ARCO's expense. Please call me at (415) 571-2434, and/or Ms. Juliett Shin of Alameda County Health Care Services (ACHCS) at (415) 271-4320 if you have any questions regarding the contents of this letter.

ARCO or PACIFIC, on behalf of ARCO, will contact you shortly in regards to this sampling activity.

Sincerely,

**ARCO Products Company**

Re: Well Sampling  
590 Hacienda Avenue  
San Lorenzo, California 94580

Dear Mr. and Mrs. Silva:

The well located on your property was sampled in November 1991 and October and December 1992 by Pacific Environmental Group, Inc (PACIFIC) on behalf of ARCO Products Company (ARCO). Thank you for your cooperation with assisting PACIFIC and ARCO during the two previous well sampling events. Because of the presence of gasoline compounds detected in the groundwater in your area, ARCO would like permission to continue sampling the well located on your property on a quarterly basis through 1993. A schedule of the sampling events for 1993 will be prepared and sent to you for your information and convenience. If this is agreeable with you, please sign and date the enclosed copy of this letter, and at your earliest convenience return it to Pacific Environmental Group, Inc. in the enclosed self addressed stamped envelope. Please retain the additional copy of this letter for your records.

If you have any questions regarding this letter, please call Mr. Kelly Brown with PACIFIC at (408) 441-7500.

Sincerely,

**ARCO Products Company**

Michael Whelan  
Environmental Engineer

Mrs. Toole  
17203 Via Magdalena  
San Lorenzo, California 94580

Re: **Groundwater Analytical Results**  
**17203 Via Magdalena**  
San Lorenzo, California 94580

Dear Mrs. Toole:

This letter presents the results of the sampling of the irrigation water-supply well located on your property at the above referenced property. Pacific Environmental Group, Inc. (PACIFIC), on behalf of ARCO Products Company (ARCO) performed the groundwater sampling to test for gasoline in the water. The sample was collected on December 21, 1992 and was submitted to the laboratory for analysis of total petroleum hydrocarbons calculated as gasoline (TPH-g) and benzene, toluene, ethylbenzene, and xylenes (BTEX compounds) in groundwater. ARCO and PACIFIC would like to express their gratitude for your cooperation in this project.

**The groundwater sample collected from your well did not contain any dissolved concentrations of TPH-g or BTEX compounds.** It is ARCO's and PACIFIC's understanding that the well is used strictly for irrigation purposes. This well should not be for any other purpose other than irrigation unless advised differently by the Alameda County Department of Environmental Health.

To continue to monitor the groundwater in your vicinity, ARCO would like your permission to sample your well on a quarterly basis through 1993. If this is agreeable with you, please sign and date the enclosed copy of ARCO's Well Sampling Permission Letter and return the signed copy to me as soon as possible. ARCO or our representative will be contacting you in regards to accessing your well.

In the event of any changes in the characteristics of the water (color, odor, clarity, etc.), please contact ARCO, and the well will be resampled at ARCO's expense.

January 14, 1993

M.E. Kast  
17349 Via Magdalena  
San Lorenzo, California 94580

Re: Groundwater Analytical Results  
17349 Via Magdalena  
San Lorenzo, California 94580

Dear M.E. Kast:

This letter presents the results of the sampling of the irrigation water-supply well on your property at the above address. ARCO Products Company (ARCO) and Pacific Environmental Group, Inc. (PACIFIC) would like to express their gratitude for your cooperation in this project. PACIFIC, on behalf of ARCO performed the groundwater sampling to determine the source and extent of gasoline contamination found in shallow groundwater, and whether gasoline is present in the well on your property. The groundwater samples were collected on October 14, 1992 and December 18, 1992 and were submitted to a laboratory to be analyzed for total petroleum hydrocarbons calculated as gasoline (TPH-g) and benzene, toluene, ethylbenzene, and xylenes (BTEX compounds) in groundwater.

Laboratory analysis of the groundwater samples collected from your well on October 14, 1992 detected TPH-g and benzene at concentrations of 2,200 and <50 parts per billion (ppb), respectively. Laboratory analysis of the groundwater sample collected from your well on December 18, 1992 detected TPH-g and benzene at concentrations of 1,500 and 14 ppb, respectively. These compounds are indicative of gasoline.

It is ARCO's and PACIFIC's understanding that your well is used only for irrigation purposes. This well should not be used for any other purpose, other than irrigation unless permitted or advised differently by the Alameda County Department of Environmental Health.

To continue to monitor the groundwater in your vicinity, ARCO would like permission to sample the well on a quarterly basis through 1993. If this is agreeable with you, please sign and date the enclosed copy of ARCO's Well Sampling Permission Letter and return the signed copy to me as soon as possible. In the event of any changes in the characteristics of the water (color, odor, clarity, etc.), please contact ARCO, and the well will be resampled immediately at ARCO's expense. Please call me at (415)-571-2434, and/or Ms. Julliet Shin of Alameda County Health Care Services (ACHCS) at (510)-271-4320 if you have any questions regarding the contents of this letter.

ARCO or PACIFIC, on behalf of ARCO, will contact you shortly in regards to this sampling activity.

Sincerely,

**ARCO Products Company**

Michael Whelan  
Environmental Engineer
