Hi Paresh,

It was a pleasure speaking with you. Please forward historical information regarding the soil contamination at this location in 1999 to me and Barbara. We understand the County had a responsibility to report this claim in SWRCB Geo Tracker database and will do so by June 25<sup>th</sup>.

**Subject:** GeoTracker Requirements for ALCO Eden Fire Dist. Site, 1430 164th Ave., San Leandro

Hello Karen,

On July 3, 2008, Alameda County Environmental Health (ACEH) sent a correspondence identifying that the ALCO Eden Consolidated Fire District site located at 1430 164<sup>th</sup> Avenue in San Leandro has not been "claimed" in the State Water Resources Control Board's (SWRCB) GeoTracker database ([www.geotracker.waterboards.ca.gov](http://www.geotracker.waterboards.ca.gov)). It was further stated that the site must be claimed by August 15, 2008 in order to remain in compliance.

A review of the case file and the State's GeoTracker database indicate that the site still has not been "claimed," rendering the site to non-compliance status. Robert Snodgrass with Alameda County Fire informed me that you are working on "claiming" the site in the State's GeoTracker database.

Pursuant to California Code of Regulations, Title 23, Division 3, Chapter 30, Articles 1 and 2, Sections 3893, 3894, and 3895, the Responsible Party is required to claim their site and subsequently electronically transmit reports and other site data, as required.

In mid July ACEH will be issuing Notices of Violation to those sites that have failed to comply with the GeoTracker requirements.

In order to regain compliance and defer the pending Notice of Violation, please claim the site and submit verification to ACEH by June 25, 2009. Please contact me should you have any questions regarding this e-mail correspondence.

Sincerely,
