[Interesting, thanks for the information regarding "source" removal. Given the planned foundation construction below the water table, we will need to look at managing construction dewatering issues and also long term groundwater dewatering or seepage issues.](#)

Subject: Excavation Depth 1432 Harrison St Property - Borsuk 540188

Dear Jerry:
Thank you for meeting with us yesterday. It was time well spent.

Mark Borsuk checked on the proposed excavation depth for development of the 1432 Harrison Street property. The proposed excavation depth is approximately 25 feet below grade (not ~14fbg). Good for any onsite "source" removal.

Thanks again.

Sincerely,
Mark Jonas
