**Subject:** RO0000266, 1432 Harrison St, Oakland - Access to adjacent property acquired

Jerry:

Today we received a copy of the fully executed access agreement allowing CRA to enter and complete the investigation field work at 1445 Harrison Street. This is the final task associated with your request to investigate the extent of "free product" in and around well MW-2, and the elevated dissolved hydrocarbon concentrations in groundwater samples collected from well MW-5 (located along 15<sup>th</sup> Street).

We are now scheduling the installation and subsequent sampling of sub-slab vapor probes in the basement of this building. Once we receive analytic results from the vapor samples, we will complete and submit the requested report for your review and comment. Please let me know if you have any questions or comments.

Thanks.  
Bob Foss
