Subject: Status of Well Destruction at Chevron #9-0329 340 Highland Avenue, Piedmont, CA (T0600101885; RO269)

Hi George,

ACEH is following through on the status of well destruction on State closed sites per your direction. ACEH met with Brian Waite and Alexis Fischer of Chevron Environmental Management Company on March 13, 2014 to discuss a number of sites. This site was included due to the lack of well destruction at the site since the SWRCB ordered the case closed on March 14, 2013. Well destruction was ordered by the SWRCB to occur within 6 months. Chevron has since communicated with ACEH that they are currently scheduling well destruction; however, has not received a date. ACEH will issue a Notice to Comply if the wells have not been destroyed within 3 months (June 13). Should you have questions, please let me know.
