**RE: Proposed Ground Water Investigation
and Well Installation Addendum**
Simpson Property
489 43rd Street
Oakland, California
WA Job No. 138-1231-02

Dear Mr. Chan:

In response to your letter dated September 14, 1999, Weiss Associates (WA) is submitting a revised Figure 2 - Soil Boring Location (enclosed). Although the text of our September 1 workplan stated, "The proposed well location is in the courtyard of the subject site," this information was not clearly indicated in our original figure due to the lack of the building footprint. WA will include the building footprint in future figures as requested. As requested, WA will also run the dissolved oxygen and oxidation-reduction potential parameters on each ground water sample prior to collecting the sample from the well.

Please provide WA with information regarding the survey reference point mentioned in your September 14, 1999 letter.

Please call me at (510) 450-6124 if you have any questions or comments regarding this workplan addendum.

Sincerely,
Weiss Associates

Melissa Chamberlain, EIT
Senior Staff Engineer
