Subject: Former Chevron Site 93322 Oakland - First Quarter 2014 Groundwater Report

Mark,

Conestoga-Rovers & Associates is waiting to receive the laboratory report for the First Quarter Groundwater Report, which was sampled on March 31, 2014. The laboratory is holding the report until their service order is received, which is currently in process. We should receive the data in a week or so. From our calculations, 60 days from sampling will be Friday, May 30, 2014. We would like to get an extension for the submittal of this report until Friday, June 27, 2014. Of course if we receive the data promptly, we will submit the report prior to the proposed due date. We will assume this extension is acceptable unless we hear otherwise from you.

Thanks,

Nathan Lee, P.G.
