Hi James,

I am perhaps somewhat suspicious that additional information at this particular site might be warranted. I might be wrong, but in the interim let's move the site to an annual groundwater sampling event conducted in the first quarter of a year as that appears to be a "worst-case" sampling period for the site. Please use this email as documentation of the change.

Best,

**Subject:** RO275 (Former Chevron 9-2960, 2416 Grove, Castro Valley) - Continued GWM?

Hi Mark,

For the RO275 site, we submitted an investigation report/closure request back on 8/16/10 (ADD\_RFC\_R\_2010-08-17) that is still awaiting review. The next GWM event is scheduled for 9/20; however, there's only one well left that is currently sampled semi-annually and has shown consistent decline over the last 10 years so I don't think additional data is necessary at this point. Would ACEH consider a suspension (temporarily) of GWM until the document/site can be reviewed? Please let me know. Thanks.

Sincerely,

---
