Subject: storm drain information

Dear Mr. Lonestar,

Alameda County Environmental Health (ACEH) is conducting a sensitive receptor study for the area of MacArthur Blvd. and Magee Ave. in Oakland. Of particular interest to ACEH is the discharge location of the storm drain inlet located at the northern corner of MacArthur Blvd. and Magee Ave. ACEH would like to identify the discharge point- e.g. surface water body, POTW, etc.- and the distance from the inlet point to the discharge point. If you could provide ACEH with this information or forward this email to whomever can provide the information, or provide me with the correct contact information, it would be greatly appreciated.

Thank you,
Keith Nowell
