Dear Mr. Hill:

This is a notice of referral for the subject site. Due to the lack of site cleanup progress, Alameda County Environmental Health (ACEH) is referring this site to the San Francisco Bay Regional Water Quality Control Board.

The TPHG plume has migrated down gradient beneath the adjacent residential neighborhood; as of January 2012, concentrations of 52,000 ppb TPHG and 2,600 ppb benzene were found in an offsite monitoring well.

Not all historic documents for the fuel leak case may be available on GeoTracker. A more complete historic case file for this site is located on the Alameda County Environmental Health website at: <http://ehgis.acgov.org/dehpublic/dehpublic.jsp>.

Should you have any questions, please send me an electronic mail message at karel.detterman@acgov.org or contact me at (510) 567-6708.

Sincerely,

Karel Detterman, P.G.
