LOP Site No. RO0000288

Dear Mr. Plunkett:

By this letter, prepared in response to your November 20, 2008 letter to Oro Loma Sanitary District, we document that the "Interim Corrective Action Plan" and the "Report of Well Closure and Soil Boring Installation" for the subject site have been uploaded to the State Water Resources Control Board's Geotracker Database. Additionally, all periodic monitoring reports through the most current "4th Quarter, 2008" report have also been uploaded. All these documents have also been uploaded to the County's FTP Site.

At this time, the report of the source removal and other interim corrective actions conducted this past summer under the Interim Corrective Action Plan is now being completed and is scheduled to be issued to Agency by January 21, 2009, in accordance with the schedule in your letter.

I declare, under penalty of perjury, that the information contained in this letter is true and correct to the best of my knowledge.

Please call me if you have questions or if I can assist you in any other way.

Yours truly,

THE SUTTON GROUP

John R Sutton
