Subject: RE: ORO LOMA SANITARY DISTRICT (T0600101928) CASE #: RO0000288 CUF Claim 8694

Alameda County is the monitoring well permitting agency, therefore, that task is on the County. The Sanitary District had contacted us telling us they had submitted the Well Abandonment Report and asked if anything else was necessary. According to the Policy the Well Abandonment Process has to have met the local permitting agency approval, for us to issue the NFA letter.

Thanks for the response.

Pat,
ACEH has reviewed the well destruction report. The report states that well destruction debris has been removed from the site and disposed at a state-licensed waste disposal facility. The report did not include documentation of this action. Because the debris included soil and annular materials (more than just the surface well box nominally characterized as construction debris), ACEH would request documentation of offsite disposal. Please advise if the State would like ACEH to followup with the consultant and RP.

Mark

Have the monitoring wells at the subject site been destroyed to the LOP satisfaction? If so please let us know so we can issue the Uniform Closure letter.

Thanks

Pat G. Cullen
