Subject: Extension Request Approved
Date: Thursday, February 23, 2017 3:28:00 PM

Mr. Tussing,

Based on your consultant Chris Kennedy's request below, the schedule for the submittal of the Soil Vapor Intrusion Investigation Report has been extended to April 14, 2017 to accommodate a meeting to discuss the results of the report prior to finalizing the report. Let me know if you have any questions,

Kit Soo, PG

Subject: Re: RE: R0289 Possible meeting week of March 17?

Kit our report is due to you on March 31. I thought it might be useful to go over the findings before we submit a report so that we can be sure that we address any concerns unforeseen by us that you may have. If we meet during the week of the 27th or later we are unlikely to meet that deadline. I hate to ask for another extension but maybe that would be best? Perhaps April 14th?

Chris – we are booked solid for the next month. For the week of March 20, most of us will be away on a conference. Anytime after that week will work. Just let me know which day is best and I will schedule you – the sooner the better as things get filled up. Thanks, kit

Subject: R0289 Possible meeting week of March 17?

Hi Kit, Mark Tussing of Owens-Brockway will be in the Bay Area the week of March 17. By then we should have all our soil vapor data compiled and a draft report prepared. Would you and Dilan be available to meet to go over our findings and discuss interpretation and next steps? If that week is impossible we could look at the week of March 20th.

Regards

Chris Kennedy
