Thank you, I will try to remember to notify you when our next correspondence comes in from the RP. It is not expected until next year. In the meantime, if I need to access the data you have, is it on ENVIROSTOR?

Subject: castro valley sites

Hi Barbara,

It was good speaking to you today. As I mentioned in our discussion, I have a dry cleaner site in Castro Valley (Marshall Steel Cleaners) which is immediately downgradient of a leaking UST site (Tien's Unocal) that your agency is overseeing. Because it appears that we have comingled plumes, it would be of benefit, I believe, to coordinate our activities and investigations. Please cc: me on any correspondence relating to your site, and I will do the same for our site. My mailing address is below. Thank you, and we look forward to working with you,

Sincerely,

Homayune Atiqee
