Dear Ms. Jakub:

BSK Associates has received your February 2, 2012, letter requesting revisions to the soil vapor point locations identified in our Soil and Water Investigation Workplan prepared for the above site. The attached figure showing the revised soil vapor sample locations. The following change were made:

- SV-4 was added between SP-1 and SB-6,
- SV-5 was moved closer to MW-101, and
- SV-9 was moved closer to the former sump area.

Additionally, we will plan not to install the proposed monitoring well at this time. If you have any questions, please contact us at (916) 853-9293.

Respectfully,
BSK Associates

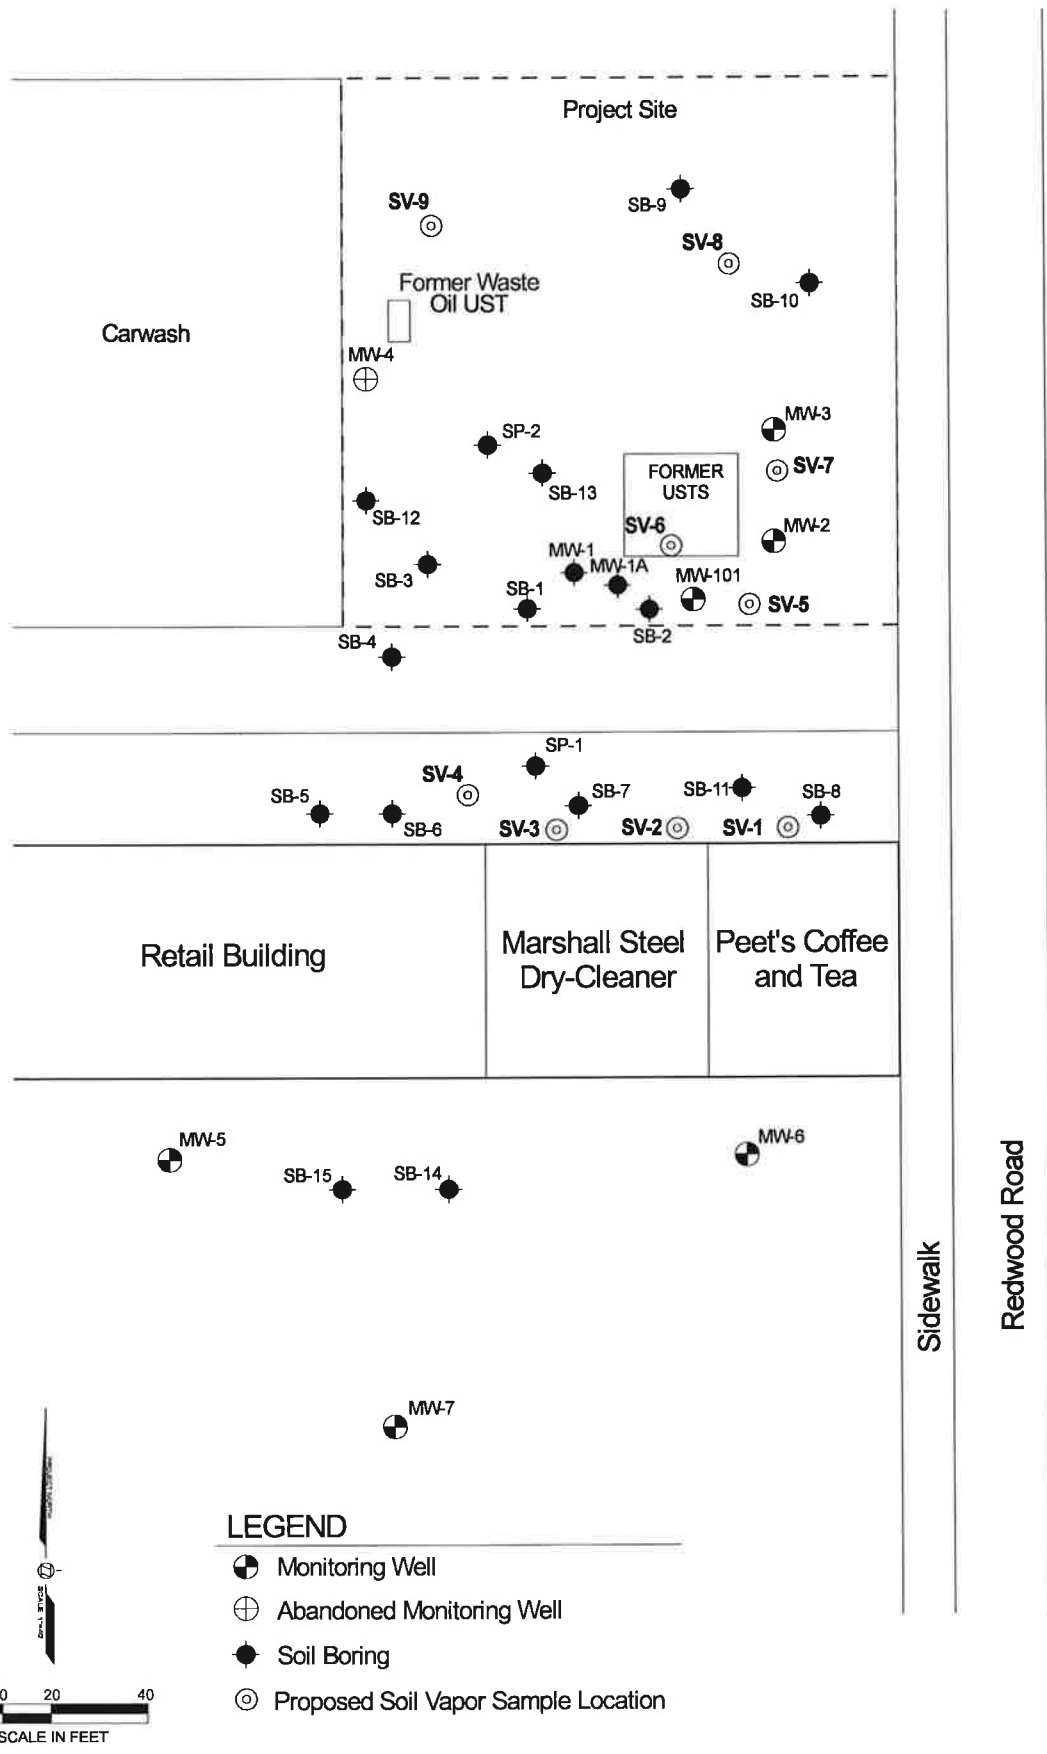

Jeffrey Yeazell, P.E.
