**THIRD QUARTER 2011  
STATUS REPORT  
FORMER STATION #402, OAKLAND, CALIFORNIA**

Broadbent & Associates, Inc. (BAI) is pleased to present this *Third Quarter 2011 Status Report* on behalf of Atlantic Richfield Company (a BP affiliated company) for Former Richfield Oil Company Station #402 located in Oakland, Alameda County, California. Quarterly reporting is being submitted to the Alameda County Environmental Health Services Agency (ACEH) consistent with their requirements under the legal authority of the California Regional Water Quality Control Board, as codified by California Code of Regulations Title 23, Section 2652(d). A summary description of current developments regarding the site is provided below.

**DISCUSSION:**

In a letter dated October 16, 2008 ACEH requested the completion of a soil and groundwater investigation as previously approved in the ACEH letter dated June 22, 2006. The approved *Work Plan – Monitoring Well Installation, 1450 Fruitvale Avenue, Oakland, California* had been prepared by AEI Consultants for Fruitvale-Farnam Associates, LLC and was dated March 3, 2005. Atlantic Richfield Company has attempted without success to contact the other listed co-Responsible Parties in order to collectively implement the approved scope of work. According to Mr. Ken Phares in care of Jay Phares Corporation (who is reportedly no longer a co-RP), Mr. Bill Phua (Fruitvale-Farnam Associates, LLC) wants no involvement with the release cleanup and is not interested in sharing cleanup costs. Furthermore, at this time it does not appear likely that Mr. Curtis Thomas will be able to prepare the cleanup fund application.

Currently BAI is attempting to facilitate property access agreements with Mr. Phua / Fruitvale-Farnam Associates, LLC. On October 11, 2010 Mr. Phares sent, on behalf of Mr. Phua, a new access agreement proposal requesting restitution for past environmental response costs and liability indemnifications. BAI understands that BP Legal is reviewing the latest proposal and attempting to negotiate the access agreement.

Further status updates will be provided to ACEH when new developments or information becomes available, but at least on a quarterly basis.
