Dear Mr. Cochran,

Mr. Richard Ely from Edd Clark & Associates, Inc. called me about your site today and informed me that there was a work plan submitted to our office in July 2003 that has not been responded to at our office. I informed him that I will review this work plan and respond before the end of November. Also, he informed me that there are three wells at the site that have not been sampled since 2001. Please proceed with redeveloping and sampling the three wells for total petroleum hydrocarbons as gasoline (TPHg), total petroleum hydrocarbons as diesel (TPHd), benzene, toluene, ethylbenzene, xylenes (BTEX), methyl tertiary butyl alcohol (MTBE), di-isopropyl ether (DIPE), ethyl tertiary butyl ether (ETBE), tertiary amyl methyl ether (TAME), 1, 2-dichloroethane (EDC), and ethylene dibromide (EDB).

Regards,

Barbara Jakub, P.G.
